

UNIVERSAL VALVE TRIM

SPEAKMAN

SPEAKMAN®

The Freedom to Renovate

Design should be limitless and courageous. It should collectively reflect your thoughts and emotions. Your personality and motives. But far too often, design becomes restricted by structure and foundation. Until now. Our Universal Valve Trim is specifically engineered to retrofit select competitor valves - providing complete artistic freedom to design the bathroom of your dreams.

Don't Let The Valve Stop You

With the Universal Valve Trim, we designed four unique adapters that perfectly fit the most popular valves that are available today.

KOHLER® RITE-TEMP

MOEN® POSITEMP

DELTA® MULTICHOICE

SYMMONS® TEMPTROL

FEATURES

- Solid metal handle
- ABS wall plate
- Configurable hot & cold indicators
- Includes mounting hardware
- Does not retrofit diverter or volume control models

Neo

CPT-1000-UNI

The Neo Universal Valve Trim was designed to be simplistic, yet surprisingly bold. With a clean, circular shape paired with crisp details - the Neo will seamlessly coordinate with modern and traditional bathrooms alike.

Kubos

CPT-1300-UNI

Unique and courageous, the Kubos Universal Valve Trim features a distinctly square frame that epitomizes modern design. Each line, shape and detail was considered to ensure this fitting becomes the centerpiece of your design.
